OFFICE: No. 15 Quincy Street.

MONDAY, APRIL 8, 1872.

Republican State Convention.

publican State Central Committee to cas upon the voters of the Republican part, in West Virgins to send delegates to a Convention to be held at Grafton, on the 33d day of May next, at 10 a. M., for the pur I transacting such other business as may there eem appropriate. The Committee urge upon the of the State the importance of a ful

tion assemble at the Cour n Saturday, the 11th day of May e delegates to the State Conventio to choose designates to the State Convention.
That each County Convention all any vacancles that may exist in the County Excentive
Committee, so that a full first of the Committee
may be reported at the State Convention.

C. W. B. Atkinon,
Unairman State Expeditive Committee.

Wheeling, March 29, 1873.

The Adjournment of the Convention According to the telegram of our Charleston correspondent, the Convention will be submitted on the 22d of Augustthe question of ballot or open voting be ing submitted separately-and officers will be voted for at the same time. The election of officers has been the objective point of the whole affair, and the eagerness to get at it is too great to allow of delay. Besides it is expected that by electing officers at the same time we vote on the Constitution all the candidates on both sides, and their friends, will natur ally be interested in favor of adopting the Constitution. It would have been fairer and in all respects more becoming to have kept the two elections entirely separate. We should have an opportunity to vote on the Constitution purely upon its merits, and without a pressure of special influences, impelling men to vote for it from personal and selfish considerations, such as will now come into play.

ATTEMPTED SUICIDE OF A MONONGA LALIA COUNTY MAN. The Baltimore American states that a man named John Osnonn, of Monongalia county, W. Va., after wandering around the city, Wednes day, in a melancholy manner, having no money or friends, found lodging at a station-house, where he was kindly provided with a bed. In the night he shot himself with a pistol, directly under the right ear, the ball lodging in the skull. The physicians pronounce the wound not necessarily tatal, unless inflammation should set in. He is described as a man who has evidently been in good circum stances, as his manner indicates refine ment; but he states that the reason for the act was domestic trouble, a part of which he says is the recent loss of his wife and several children. He was subsequently removed to the Washington University Hospital, where he lies in a precarious

Improvement of the Ohio. The following bill regarding improve nents of the Ohio river was passed by the House Friday

Bo it enacted, &c. That the Secretary of War be and he is hereby directed to appoint three competent civil engineers to examine and report upon the Noble method of channeling and dredging the Ohio river and its tributaries, for the purpose of improving the navigation of said rivers, and in case said Board shall recomnend a further test of the method afore said, the Secretary of War shall authoriz the same to be done.

The river and harbor bill will contain \$200,000 for the improvement of the Ohio, \$50,000 for the Wabash, and the appro priation of \$300,000 to complete the Louis ville canal agreed upon and announce some weeks since.

To DISCOVER Spurious greenbacks or national bank notes divide the last two figures of the number of the bill by four and if one remain the letter on the genuine will be A; if two remain it will be B; it three, C; and should there be no Give the "Seventence" a trial, and be conremainder the letter will be D. For ex. ample, a note is registered 2,461; divide sixty-one by four and you will have one remaining. According to the rule the note will be A. In case the rule fails the bill is counterfeit.

THE House Committee on Freedman's Affairs had under consideration Fri day the bill to abolish the Freedmen's Bureau. Gen. Howard reports that it will require an appropriation of \$100,000 to wind up the affairs of that institution The committee thought that amount very large, and directed a letter be sent to the Secretary of War inquiring as to the items requiring this sum.

THE fact that President GRANT was in New York on the occasion of the junera of General ROBERT ANDERSON, of Fort Suniter fame, and yet took no part therein, and paid no attention to it, is sharply mented on by Republican as well as Democratic papers.

THE New York Tribune refers to the CHURCH-CHASE Convention as "the Wheeling movement." Wheeling begs leave to disclaim the honor. It is a Par-kersburg affair, and Wheeling does not wish to flaunt in the misappropriated

finery of her sister city. THE Hancock Courier indulges the philosophical observation that "the grocery keeper who will cheat a poor family h-l," and then adds a supposition that

out of four ounces of lard would disgrace "every grocery keeper in town is innocent"-from which we infer the contrary. THE Parkersburg Times is remainly in-

formed that the Democratic State Convention will be held in that city on the 30th of May. It is expected that the call for it will appear this morning in the Regis-

SHEPHERDSTOWN, Jefferson county, has subscribed \$8,000 to the Shennandoah Valley Railroad Company.

AT Charleston, on the 1st of April, the ground was covered with snow. No snow up here. Nothingbut perennial summer.

COMMUNITY OF INTEREST BETWEE

Etna Iron and Nail Company" which proposes to locate its works on the Ohio hore above Bridgeport, and that of the Pultney Nail Works Company" soon to be organized and to commence operations on the Cummin's farm, opposite the lower

end of the city.

I do not allude to these enterprises with but speak of them as substantially Wheel ing institutions, as you well remark in your notice as to the former enterprise. A third enterprise of this kind, to be located just below Bridgeport, has been for some time in contempation.

zens look upon all such improvements these, springing up on the Ohio side of the river, as rival enterprises to Wheel ing. But there is really no antagonism between these and our city interests proper. Our interests and those of the villages and people across the river from us are one, especially as to manufacturing and larger business enterprises; and it should be a matter of rejoicing among us that such desirable manufacturing sites and facilities are available on the Obio shore so near to our city. The location shore so near to our city. The location of iron and class works, and other like manulactories, on that side of the river will be no more competitive to Wheeling than those on the south side of the Monon-galeia are to the city of Pittsburgh, unss we choose to make them so by man fessive choose to make them so by mani-festing opposition to them. Pittsburgh men and capital built and control the latter, and if Wheeling men and capital will embark in the former, the results attained will be realized and ac-credited as Wheeling achievements. The best available manufacturing sites at present are on the west side of the river resent are on the west side of the river The coal is there abundant and conven-ient. The transportation is there for the raw material and the manufactured prodicts, and let us be thankful that such community of interest exists between ourselves and our neighbors over the riv-er as that both may be mutually bene-fitted by making "common cause" in developing our common resources and thus add to our common prosperity. Whatever interests one side of the river must, in the very nature of the case, in-terest the other side also. Our commercial interests, our manufacturing enter-prises, and our railroad systems, present and prospective, all are really one. Let and aid, and we will reap our mutual rewards in the consequent increased life

DIED. KITSON.—On Saturday, April 6, 1873, LILLIE, oungest daughter of George and Eveline Kitson, ged 1 year and 5 months.

funeral will take place from the residence of its parents in Fulton at 10 o'clock this morn ing. The friends of the family are respectfully invited to attend

and prosperity of the whole communi
